

Classroom Installation Guide for Autodesk Inventor Professional 2017 with multi-seat Standalone licensing

Updated: 4/17/2017

Preparing your system and installation (+/- 2 hours)

**It is imperative that you consult your IT team prior to installing any software or attempting to amend any settings on your computer. Administrative rights are based on a profile created by your System Administrator; therefore a plethora of variances are possible and these 'rights' may not necessarily allow you to install software properly.*

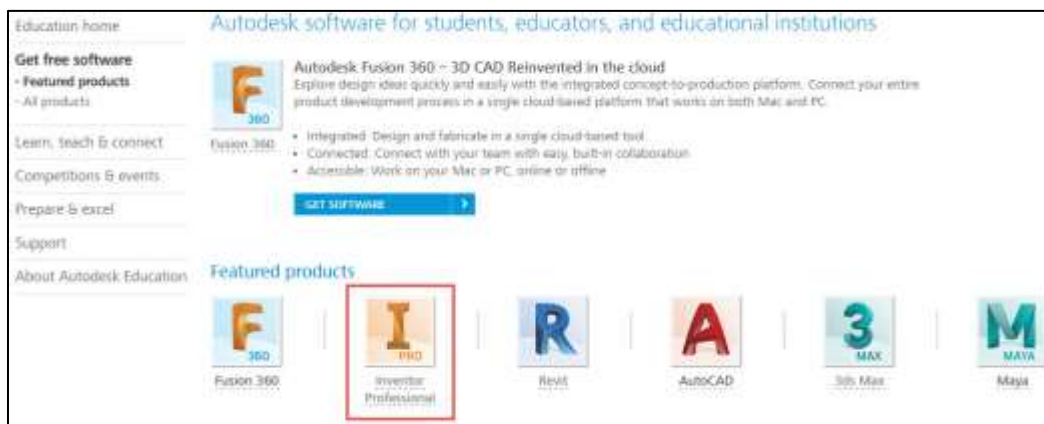

1. Disable the UACs (set to 'Never notify')
2. Disable the anti-virus software
3. Disable pop-up blocker in the browser you are utilizing

(These settings may be re-enabled once the software is installed and operational.)

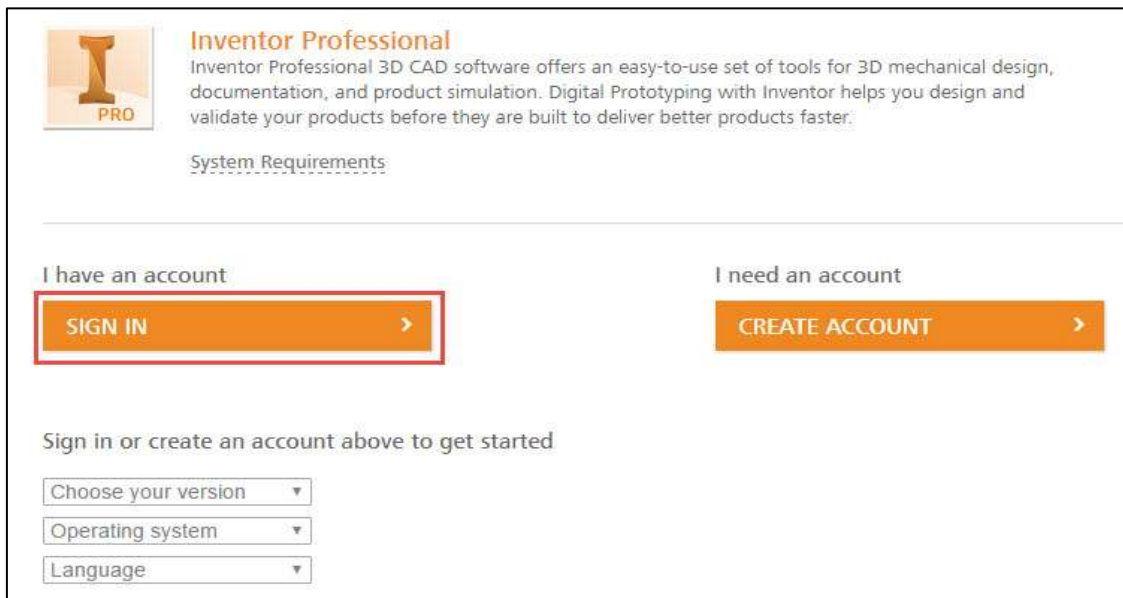

4. Ensure you have permissions to install USB drivers for any Android, Robotics or other devices which will connect to the computer via USB.

Procedure

1. Go to <http://www.autodesk.com/education/free-software/featured>
2. Select **Inventor**

3. Select **Sign In** or Create Account if you do not have an Autodesk account. If you are creating an account, be sure to choose your Educational Role in the second drop down menu.

Inventor Professional
Inventor Professional 3D CAD software offers an easy-to-use set of tools for 3D mechanical design, documentation, and product simulation. Digital Prototyping with Inventor helps you design and validate your products before they are built to deliver better products faster.

Product Key: 797H

Request code:

To activate your Autodesk Inventor Professional 2017 license immediately, please select "Connect now and activate" again. If you still experience problems during activation, and if you requested and received an activation code from Autodesk, select "I have an activation code from Autodesk".

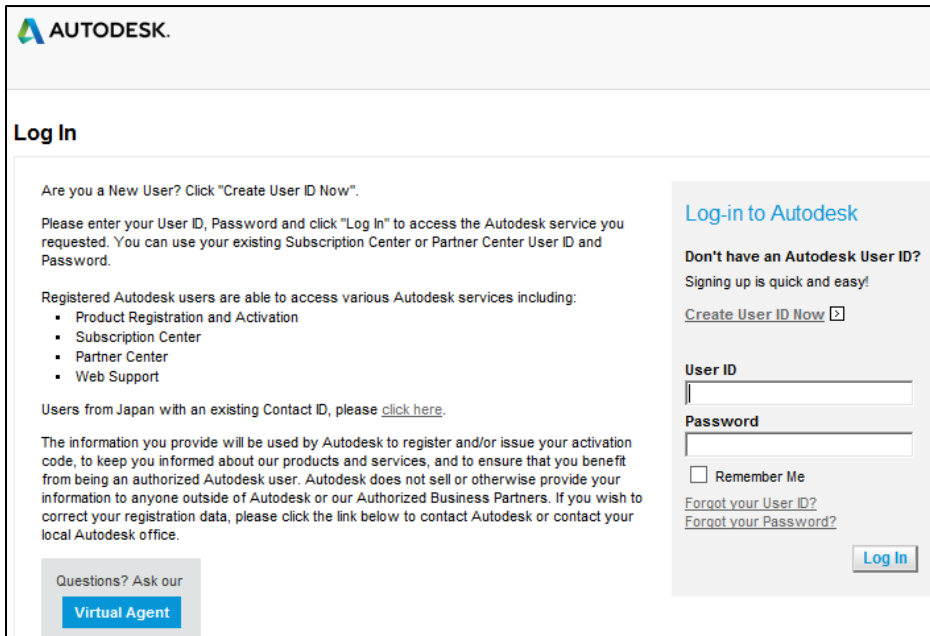

Connect now and activate! (Recommended)

I have an activation code from Autodesk

You can also request an activation code by visiting: <https://register.autodesk.com>

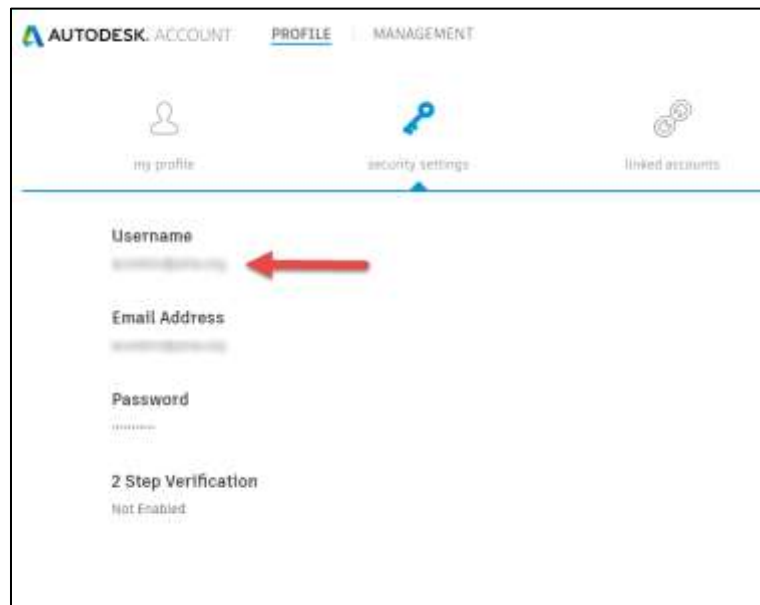

Back Close **Next**

19. Using a School: Deploy without a network server Serial Number will need to be activated by logging in with your Autodesk User ID (This may be different than your email address. See step 20a. for help).

The screenshot shows the Autodesk login interface. At the top left is the Autodesk logo. Below it is the heading "Log In". The main content area contains instructions for new users and existing users, a list of services available to registered users, and a "Log In" button. On the right side, there is a "Log-in to Autodesk" section with a "Create User ID Now" link, input fields for "User ID" and "Password", a "Remember Me" checkbox, and links for "Forgot your User ID?" and "Forgot your Password?". A "Log In" button is located at the bottom right of this section.

a. If you do not know your Autodesk User ID, log in to <https://accounts.autodesk.com/> and to the Security Settings tab. Listed here will be your Autodesk ID.

The screenshot shows the Autodesk Account Profile page. At the top, there are tabs for "ACCOUNT", "PROFILE", and "MANAGEMENT". Below the tabs are three icons representing "my profile", "security settings", and "linked accounts". The "security settings" icon is highlighted with a blue arrow. Below the icons, there are sections for "Username", "Email Address", "Password", and "2 Step Verification". A red arrow points to the "Username" field, which contains the text "XXXXXXXXXX". The "2 Step Verification" section shows "Not Enabled".

20. Once you have logged into your Register Once account, ensure your information is correct, select the correct **Institution** and then select Next.

- a. ***Note: You CANNOT register Autodesk products under your name. If you do not see your school listed as an account, you must select Add New Account to add your school.*
